Jan 1, 2019 If there is no option to start game in "compatibility mode" in B.O.3 the configuration/settings may be corrupted, or it is caused by very specific hardware configurations. Most of users have the same problem. 1. force Steam to launch in compatibility mode: click on steam logo > settings > additional features > click on compatibility mode, tick 'compatibility mode' and click OK. 2. force Steam to launch in .

Aug 31, 2019 If you're running the game in fullscreen mode with a controller, and you notice that the game has a black screen. 1. make sure you're plugged into the wall 2. unplug the controller 3. press the menu key, and select 'Settings' (instead of 'Options') and in the 'controller' tab, un-check 'USB extension'. 4. press the X button to restart the game

Aug 31, 2019 If you're running the game in fullscreen mode with a keyboard/mouse, and notice that the game doesn't acknowledge that input. (for example, you click on another window and the game doesn't respond) 1. . 2. the 'Capture Windows keyboard input' option should be ticked on the 'Input' tab of the Steam Settings 3. press the X button to restart the game.

Dec 21, 2018 Black Ops 3 is now too old to be optimised for use with Windows 10, which is now the operating system it was created for. Modern changes Graphics The game's graphics are mainly a darkening of the Battle Royale section, with changes to the loading screens. Certain textures are not changed and some textures such as rock faces have been lost to shader black-listing, in some cases only the shader is black-listed and not the mesh. The start menu has been updated to include Leaderboards, but without friends lists. Battle Royale The game returns to the heavily redesigned Battle Royale mode that was introduced in Black Ops 4. The game has been

revamped on a number of fronts: Optional class-specific customization. Players choose between nine options, most of which give access to unique costumes, weapon skins, primary and secondary weapons, and a different variety of loadouts. Customized killboards. The player can enter customized killboards which show the top players in a variety of categories. These also appear in the new map. No
