About This Game

The train is leaving the station, but soon you notice that something is missing... Rails! You have to lay tracks right in the path of the moving train to keep it from crashing. The goal is to connect all the stations...if you can. The train is getting faster and faster with each laid piece of track. Are you fast enough to survive?

Key Features:

- Transforms from relaxing to hectic gameplay, pushing your strategic ability to the max.
- Night, Day and Hardcore modes
- Highly Detailed Train with steam implemented in order to give you an real environment feel. It's completely awesome!
- Random generated worlds. So there's no getting use to levels. Each level will differ, putting your strategic abilities at test again.
- Low hardware requirements.
- Game is Touch or Gyroscope friendly.
- Fast paced, so it's ideal as an boredom killer and for traveling, when you don't want to look at other boring faces in your vehicle.

-
- Cool stylized low poly, very unique graphics!

English

Sometimes, you find a game that calls you up in the middle of the night. The desire to lay more track is almost like a slow torch burning. Which way to go, left or right, like a key that could use a little turning.

Can't sleep. Won't weep. I'm in too deep. There's no way out.

Runaway train. Never going back. . .

tl;dr -- if you don't like this game, i'm sorry for your life. Ok so i want to specify the things that are very nice of this game

It is very addicting. expecially for those who dont even like trains but like games simmalar OR like snake

Its cheap.

It has very good achievements. really shows off some skill

Night mode and Hardcore mode showing some differculy

Very cute art style

Runs very well

One thing im a bit sad bout is you cant use the train with cargo. im guessing its there just for the picture which is still fine with me

Overall the game is amazing for what its worth. 10/10 would run away again.
